

Valiant Films Production Services

Production Services

We are capable of producing TV commercials anywhere in the world, but we specialize mostly in the U.S, Mexico, Argentina and Dominican Republic. We take boards and make them come to life. We do castings, location scouts, hire the crew and book your studio and equipment.

We represent **Nadia Voukitchevitch** as Director/Producer/Writer, **Edgar Martin Gutierrez** as Director/Producer, and **Laura Harper** as Writer/Producer.

Creative/Research Services

We offer copywriting for commercials in English and Spanish. We are capable of organizing great brainstorm sessions where we guarantee you will not be disappointed with our ideas. We do the market research on any subject requiring facts and information. We also do professional creative treatments that are accompanied by thought-provoking and creative visuals.

Promotions/PR

We are experts at doing community outreach and launching your company in the Latin Market--getting the word out there that you are the best in whatever service you provide. We coordinate company parties and events. We organize fundraising dinners and prepare interactive media presentations.

Post-Production

We produce any of your editorial needs and collaborate with many well-known SFX and animation houses in Los Angeles and New York. We can also cut your spot or film with our in-house Final Cut Studio.

Current/Upcoming Projects

Currently Valiant Films is in pre-production for a documentary that Nadia will direct and has written titled: "The War Within" that is based on the case of numerous suicides committed by American soldiers returning from Iraq.

Valiant Films is also seeking funding for a feature length script that Nadia's has written title: "Killing The Witnesses" this is loosely based on true facts about the U.S. invasion of Iraq & Iran and the killings of journalists during this horrendous attack.

In addition to the films, Valiant Films is presently developing several reality TV shows.

Valiant Films, Inc. was founded in June of 2005 in Los Angeles, California. It was created to afford its Owner/President, Nadia Voukitchevitch, the freedom to create, produce and direct films, commercials, public service announcements, music videos, industrials, and documentaries that are meaningful and focus on quality.

The name Valiant, comes from "valiente" in Spanish, which means to be brave and to have courage. The idea being that in this day and age you have to be pretty brave to express yourself in a free manner. It also comes from valor, meaning that we value our clients' work, because it is very important to us to produce great work and memorable spots/films that ultimately change your way of thinking and the world's. Most importantly, Valiant Film's goal is to produce work that is socially accountable whilst still commercial.
